Driver Covenant for Mexico 2012

We would like you to understand the incredible privilege it is that parents are trusting you with the lives of their children. However, with that privilege comes much responsibility. The following are not guidelines, but are regulations we are asking you to commit to as a driver.

A Contract on Driver Conduct

1. There will be absolutely no stunting or reckless driving. This includes passing vans within the caravan. I will stick to my assigned spot.
2. There will be absolutely no cell phone or 2-way radio use by the driver; this is for the co-pilot or student leader only.
3. I understand that driving the legal speed limit is not always safe.
4. I am responsible for every individual in my vehicle. I will ensure that students will be wearing their seatbelts at all times. There will be NO sleeping on the floors of vehicles.
5. When I am not driving and know that I will be expected to drive again, I will be making every effort to rest so that I am fully prepared to drive.
6. I have taken the driver training course and will drive in a safe manner.
7. I will not try and persevere in the length of my driving. I will drive for no longer than 1 shift at a time, and will inform my partner if I need to take a break before then.
8. I am over the age of 25 **and** have a minimum of 3 years current driving experience **and** hold a permanent license.

I agree to the above statements
